## Call for papers

**THEME: *Voices of Change: Amplifying the Impact and Relevance of Applied Linguistics***

We invite proposals for the ALANZ Symposium 2025, themed *Voices of Change: Amplifying the Impact and Relevance of Applied Linguistics*.

This one-day symposium provides a platform for researchers, educators, and postgraduate students to engage in critical discussions on how applied linguistics can drive meaningful change.

This year, we explore how our field can elevate diverse perspectives, shape educational practices, and influence language policy in Aotearoa and beyond. We welcome submissions that address pressing issues such as:

- **Learner identities** and the dynamics of multilingualism
- **Teacher identities, beliefs and practices** in evolving language landscapes
- **Text linguistics** and its role in meaning-making across contexts
- **Discourse analysis** in shaping societal narratives
- **Language/languageing and multimodality** in digital and physical spaces

We particularly encourage contributions that examine the intersections of applied linguistics with **indigenous language revitalisation, multilingual education, artificial intelligence, and social justice**. Postgraduate researchers are welcome and encouraged to submit an abstract.

Join us in sparking dialogue, sharing innovative research, and shaping the future of our field.

### PLENARY SPEAKERS:

**Professor Gary Barkhuizen**, University of Auckland, Auckland

**Professor Sophie Nock**, University of Waikato, Hamilton
